Host profile: *GI Oncology - multidisciplinary team, medical-surgical department of GI oncology and onco-genetic in GI cancer. HEGP is a large university hospital in the west part of Paris. It has a large pole ("oncologie et spécialités") of integrated oncology with most of the oncological specialities: radiotherapy, nuclear medicine, radiology and interventional radiology, surgical oncology: digestive, head and neck, urology, gynaecology, thoracic and digestive oncology and gastroenterology, medical oncology, onco-geriatrics and palliative care unit. Medical activities with all the diagnostic and therapeutic activities are discussed in multidisciplinary meetings. University activities are organized on weekly (staffs, bibliography, research meetings etc...); participation to local scientific meetings and symposia in Paris are encouraged. Visitors have to understand and speak French to really profit but most of the physicians can speak English.*
