Zip / City / Country: **21000 Dijon, France**  
website: <http://www.chu-dijon.fr/en>

Contact person: **Professor Côme Lepage**

### General description of Hospital

The first establishment in the region for the treatment of cancer with several thousand patients followed each year, CHU Dijon Burgundy supports all hematological tumors and solid tumors of adults and children, with the exception of breast-related pathologies.

To guarantee the quality of care provided, we have state-of-the-art equipment and technical platforms: molecular biology, diagnostic and interventional radiology, surgery and interventional endoscopy. It also benefits from multidisciplinary teams (doctors, nurses, surgeons, pharmacists, radiologists, anatomic pathologists, biologists, etc.) who deploy daily the excellence of their skills and know-how at the service of the patient. Multidisciplinary is another strength of the institution. It is in support of its expertise in many specialties that CHU Dijon Burgundy is now a regional referent in the field of oncology.

Our institution is ranked every year in the top 10 hospitals in France for the management of digestive cancers.

<b>University hospital</b>	<input checked="" type="checkbox"/>	<b>total number of beds</b>	<b>2.200</b>
<b>University affiliated hospital</b>	<input type="checkbox"/>	<b>beds dedicated to GI oncology:</b>	<b>73</b>
