Contact Person: Thomas Gruenberger [tgruenberger@icloud.com](mailto:tgruenberger@icloud.com)  
Position: Professor and Chairman / Department of Surgery

### General Description of hospital

One of the 6 large hospitals in Vienna, where we see approximately 1.000 patients per month with various surgical diagnosis. We are one of three cancer centres in Vienna and our main focus is dedicated to the treatment of hepato-pancreato-biliary (HPB) diseases. Patients with HPB diagnosis are discussed within a weekly GI tumour board, where we decide upon systemic therapy, surgery, radiologic or stereotactic intervention within or without dedicated studies. The surgical department has 56 regular beds and additional 14 beds on an interdisciplinary ward.

University hospital	<input type="checkbox"/>	total number of beds	800
University affiliated hospital	<input checked="" type="checkbox"/>	beds dedicated to GI oncology:	40
