General description of Hospital

University Hospital of Ulm provides a profound supply in all medical disciplines. Annually approx. 43.000 patients receive in-patient treatment; additionally, we see approx. 270.000 out-patient cases per year.

University hospital **total number of beds**
University affiliated hospital **beds dedicated to GI oncology:**

Host profile:

Within the framework of the Comprehensive Cancer Center Ulm we offer the applicant a comprehensive overview on modern diagnostic and therapeutic treatment strategies in GI cancer including endoscopy, surgery, systemic treatment, radiotherapy and interventional strategies such as SIRT and RFTA. Furthermore, applicants will get to know modern concepts in nutrition therapy, psycho-oncology and palliative care. Given the limited amount of time, applicants should state their preferences for at maximum three different topics that will be the major areas to be covered during their stay.

Multidisciplinary

- Specialities available: Surgery, Medical Oncology/ GI Oncology, Gastroenterology, Pathology, Radiology
- Opportunity to frequently participate in multidisciplinary team meetings

Supervision

- The trainee can frequently participate in operations with his/her tutor
- The trainee can frequently participate in outpatient clinics with his/her tutor

Please note: according to its profile, this institute preferably hosts Gastroenterologists
